•Member composition: Mixed category only (pre-determined)

Of the seven players, three or four must be female or male.

Before the match begins, there will be a second toss (flip) after the first toss (flip). The team that wins the second toss (flip) will determine the gender ratio for the first turn. The second and third turns have the opposite gender ratio from the first turn. The fourth and fifth turns have the same gender ratio as the first turn. In this way, the ratio of men to women will be switched every time two points are scored during the match (until the end of the match).

If there are only three players due to injury or other reasons, the match may be played with the consent of the opposing team. However, if there are two or fewer players, the team will be considered scratched.
